When embalmer Freddy Foley's young daughter was murdered two years ago by "The Angel Killer", his life was turned upside down. Now, his estranged wife reaches out to him and their grief is ignited all over again as the serial killer strikes another young victim. Unraveling fast, Freddy's millionaire "life of the party" best friend, George Casey, does everything within his power and his finances to keep his friend from self-destruction.

Deranged killer, Steven Murdock, hears a voice in his head that directs him to "birth angels." Young and beautiful, these children are brutally murdered and revealed in a sickening display of innocence and human carnage.

Freddy wrestles with questions of life, death, and doing the right thing while fighting the overwhelming desire to use his expert embalming skills to exact vicious revenge.

The true test comes in a surprising supernatural twist of fate when Freddy Foley comes face to face with the Angel Killer. What will he do? And will it involve the tools of his trade?

This "can't stop reading" horror-thriller will have you on the edge of your seat from the blood-spattered beginning to the shocking surprise ending.
